PLANNING APPLICATION
Shoreland Tree Removal Form

In addition to the Site Plan below, please provide a description of all proposed work including: 1) the location, size, and type of trees to be removed; 2) any nearby, existing, new tree growth (location, size, and type); 3) proposed replacement trees (location, size, and type); and 4) a soil erosion control and stabilization plan for before and after tree removal.

SITE PLAN

Please include:

- 1) Lot lines and shorelines;
- 2) Existing structure(s)--including driveways, decks, porches, out buildings, etc.;
- 3) Existing wells, septic systems, and/or other utilities;
- 4) Setback line from shoreline, with dimensions (75' from tidal or stream, 100' from non-tidal);
- 5) Identify all trees proposed to be removed;
- 6) Identify remaining, nearby, significant trees (for reference).
